BICSI INDIA ANNUAL CONFERENCE

Biggest ICT Industry Event in India

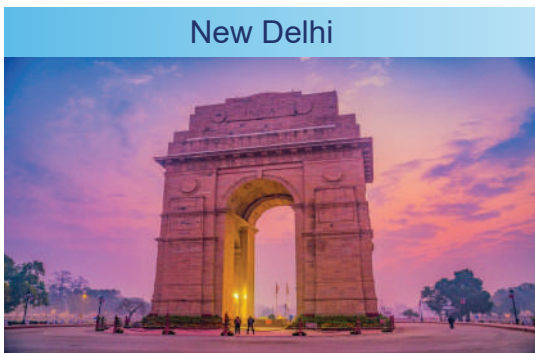

BICSI India, with the aim to reach out to the ICT industry, organizes Conferences, Seminars and Workshops across India. Over a decade, BICSI India as BICSI India district has come a long way. From holding its inaugural conference at Mumbai in 2004 which was attended by 100 delegates and 10 members then is now a prominent ICT conclave attended by 500 delegates and 150 members. BICSI India district moves into its 20th successful year in 2023.

This year it is anticipated that more than 500 delegates will attend the Annual Conference and Satellite Seminars put together. The attendees are largely represented from End-users, System Integrators, Installers, Consultants, Distributors, OEMs from the Information & Communications Technology (ICT) community, Members of BICSI and Other ICT Industry Associations in India.

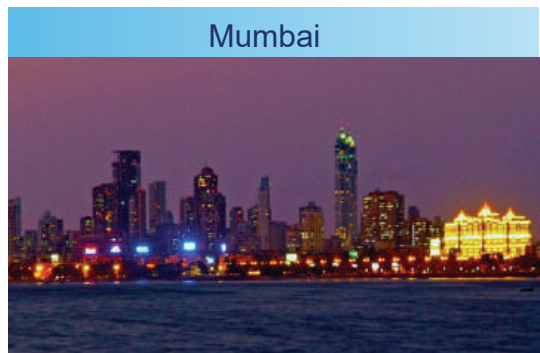

Rich with various topics and exhibition this year the conference is being held at Bengaluru on 22nd September.

BICSI INDIA District

The establishment of BICSI INDIA District is an exciting development for ICT industry in India as it provides a direct link to over 25,000 skilled professionals in India and around the world and most importantly provides the opportunity to tap into a vast ICT knowledge base. Over the past 20 years, BICSI India has grown considerably and we currently have members from consulting, manufacturing, distribution & systems integrations background.

Our Indian activities are driven by BICSI India Affiliate along with guidance and support of 10 - member Advisory board. We have been conducting technical conferences, satellite seminars, exhibitions and technical workshops in various parts of India and even beyond in the neighboring SAARC countries.

The BICSI INDIA learn to succeed initiative has made a considerable improvement in our membership base and in the number of BICSI credential holders over the past few years and the district looks forward to growing stronger and reach farther serving the ICT professionals community in the times to come.

About BICSI

BICSI is a professional association supporting the advancement of the Information & Communications Technology (ICT) Community.

BICSI Provides information, education and knowledge assessment for individuals and companies in the ICT industry. BICSI Serves more than 25000 ICT professionals, including designers, installers and technicians. These individuals provide the fundamental infrastructure for telecommunications, audio/video, life-safety and automation systems. Through courses, conferences, publications and professional registration programs, BICSI staffs and volunteers assist ICT professionals in delivering critical products and services, and offer opportunities for continual improvement and enhanced professional stature.

Headquarters in Tampa, Florida, USA, BICSI Membership spans nearly 100 countries
